Fronteluce

195 Adjustability

35° Adjustability

Features

IP66 850 CE IK07

- Multi system linear projector.
- End caps and mounting brackets accessories are made of die cast aluminium.
- Housing is in extruded aluminium, with toughened safety glass, weatherproof durable silicone gasket, breather device and external screws made of stainless steel.
- Superior polyester powder paint resistant to outdoor atmospheric conditions.
- Front cover is designed to avoid accumulation of dust and water.
- Lamp replacement convenient easy 'no tool' due to the design of the front cover in hinged aluminium frame.
- Electrical installation includes double cable entry.
- Light sources include Fluorescent, LED and RGB.
- Long life LED light sources provide IR and UV free emission.
- LED optics use collimating lens made of optical polymer for different beam optics.
- Super pure aluminium reflector with different beam optics.
- Light head include adjust ability for vertical and horizontal mechanical locking system to ensure aiming stability.
- Designed and manufactured to comply with European standard EN 60598
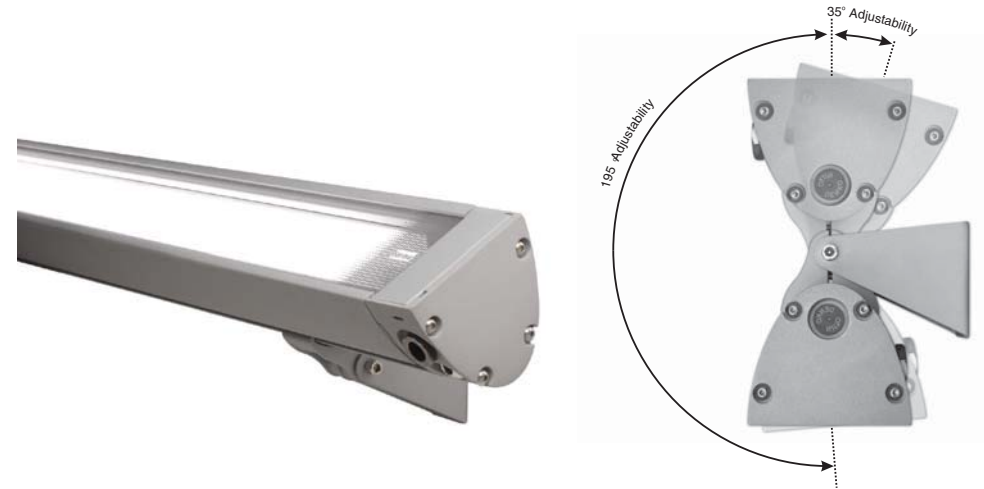

Applications

- Fronteluce a linear luminaire of extremely compact dimension, has minimal visual impact and maximum flexibility to make it possible to be integrated discreetly into the architecture of a building to also be used to create continuous light line. It is available in different modules lengths for T16 fluorescent lamps ,white or coloured or RGB LEDs. Due to the range of accessories it can be mounted on the ground, wall and wall extended, ceiling pole top and pole side.
- Application areas: to illuminate buildings, landmarks facade, under canopy, big sign boards, sculptures architectural, structural enhancement, exterior or interior, residential or commercial.

Easy relamping

Fronteluce LED

3195-RGB	With 12x3W **LED** RGB	L: 674 LED
3196-RGB	With 18x3W **LED** RGB	L: 974
3197-RGB	With 24x3W **LED** RGB	L: 1274

Passive dissipation, inclusive of integral Control Unit with 220-240V 50/60Hz. electronic power supply and DMX signal converter with M/F In-Out signal cables for multiple connections. (Occupies 3 control channels.)
Supplied hard wired with 3000mm cable type H07RN-F 3x1.0mm².
