Tilting and rotate.

Outward tilting   **Normal position**
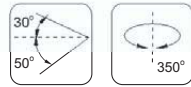

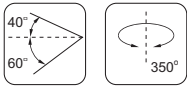

Inward tilting   **Tilting**

In-Out Roller
Recessed fully tiltable and rotatable downlight

Features
→ In-Out Roller allows versatile tilting adjustability of inward angle of 40° and outward of 60°.
→ In-Out Mini-Roller allows versatile tilting adjustability of inward angle of 30° and outward of 50°.
→ In-Out Micro-Roller allows versatile tilting adjustability of inward angle of 25° and outward of 30°.
→ 350° horizontal rotation adjustability.
→ Trim and body made of die cast aluminium. Tilt and rotation system mechanism is made of heat resistance thermoplastic.
→ Reflector made of super-pure aluminium. Installation springs are suitable for ceiling thickness up to max. 25mm.
→ Cable length L.500mm with male and female plug.
→ Control gear (either conventional or electronic) in pre-wire remote has to be ordered separately.
→ Designed and manufactured to comply with European standard EN60598.

Applications
→ Ideal for locations where the maximum flexibility of lighting coverage is required.
→ Application areas: departmental stores, showrooms retail stores, spas, hotels, exhibition centers.
