

Multigimbalo Structure AR111

Colour  75

Ceiling base for power supply

Ceiling base for suspension wire

MultiGimbalo Structure AR111

Low voltage fully adjustable system luminaires for surface and suspension mounting.

Features

- 0° - 40° versatile aiming angles on both horizontal and vertical axis.
- Body made of extruded aluminium.
- Directional rings made in die cast aluminium.
- Transformers are electronic and integrated into the aluminium body.
- Designed and manufactured to comply with European standard EN 60598.

Applications

- MultiGimbalo Structure is available in a wide variety of sizes and configurations.
- Mounted on wall or ceiling using steel wires (1.5 meter standard length).
- Application areas: retail, department stores, galleries, shopping centers, showrooms, residential, restaurants, hotels and lobbies with high ceilings.

Micro-Multigimbalo Structure MR16

Colour  75

Ceiling base for power supply

Ceiling base for suspension wire

Micro-Multigimbalo Structure MR16

Low voltage fully adjustable multi-luminaires system for surface/suspension mounting.

Features

- 0° - 40° versatile angles on both horizontal and vertical axis.
- Body made of extruded aluminium.
- Directional rings made of die cast aluminium.
- Electronic transformers are integrated into the aluminium body.
- Designed and manufactured to comply with European standard EN 60598.

Applications

- Micro-Multigimbalo Structure is available in wide variety of sizes and configurations mounted on wall or ceiling using steel wires (1.5 meter standard length).
- Application areas: retail, department stores, galleries, shopping centers, showrooms, residential, restaurants, hotels and lobbies with high ceilings.
