

RANDA

design SBP

RANDA corrosion resistant IP55 fittings manufactured from technopolymer suitable for indoor and outdoor applications. Available with various mounting options and suitable for use with a wide range of light sources: compact fluorescent, mercury vapour, high pressure sodium and metal halide (100W max).

Randa are available in two versions:

RANDA fixed surface mounted
RANDA OR cradle mounted for adjustable positioning.

Randa are highly versatile luminaires to suit a variety of applications.

- Glass fibre reinforced polyamide black body.
- Cover in UV stabilized polycarbonate. RANDA 80 and 100 are supplied with an internal toughened glass to further shield the polycarbonate cover from UV.
- Silicone gaskets.
- Stainless steel external screws.

A0047 pole mounting accessories for single or twin fittings on 60mm poles.

Through wiring connection using A0052 gland accessory.

RANDA OR fittings are suitable for use with extension arm bracket accessory A0026 (500mm or 1000mm).
