## Roller & Mini Roller

Recessed fully tiltable and rotatable downlights.

### Features

- Versatile aiming angle 0°-50° vertical tilting and 350° horizontal rotation adjustability.
- Housing and trim made of die cast aluminum.
- Reflector made of super-pure anodized aluminum.
- Installation springs are suitable for ceiling thickness up to max 25mm.
- Cable length L.500mm.
- Transformer and control gear (either conventional or electronic) in pre-wired remote unit has to be ordered separately. Designed and manufactured to comply with European standard EN60598.

### Applications

- A comprehensive range of round fully adjustable downlights.
- Great flexibility for interchangeable spaces.
- For wall washing and highlighting.
- Mini Roller version also available. Ideal for use in areas with less available ceiling surfaces or smaller spaces.
- Multiple lamp types, including HID and Halogen.
- Application areas: shopping malls, window display, corridors, retail, commercial, residential, restaurants, hotels, spas, showrooms, exhibits.
