Nano

Wall & ceiling surface mounted luminaire with special halo backlight effect.

Features

- Diffuser frame housing made of die cast aluminum. Front lens made of toughened opal glass. Back housing made of translucent plastic in variety of colours.
- A tough yet elegant low energy luminaire of shallow design.
- Easy to relamp due to a clever Twist and Lock mechanism.
- Halo back light effect is optional and available in 5 different colours: purple / transparent / orange / green / pink.
- Designed and manufactured to comply with European standard EN60598.

Application

- These miniature surface mounted luminaire create dramatic, localized brightness.
- Their small scale design encourages easy and versatile placement. They provide a soft glow within a pleasing pool of light.
- Application areas: retail, small corridors, hotels, residential, commercial, office areas.
