

QUATRIX

design Roberto Fiorato

QUATRIX is also available
in emergency models
(QUATRIX EM/3P - QUATRIX A EM/3P).

QUATRIX luminaires can be
fitted with a choice screens
that can be customised with
decorations or monograms
upon request.

Series of indoor/outdoor wall luminaires with different screens, also available with pictograms or customisations upon request (QUATRIX and QUATRIX K models). QUATRIX has a thick glass diffuser, internally painted for soft, even lighting.

The screens, base and the bars that hold the glass in place are in die-cast aluminium.

Models A, G and K are available with finishes that go well with natural materials.

The simple and modern geometric shape, with colours sympathetic to traditional architecture make the QUATRIX an ideal choice for architecturally restored buildings, general area lighting, hotels and public buildings.

K model screens can be customised on demand with logos, signs and decorations.
